Ragged T-Shirt Quilt Instructions

By: Carolyn Wainscott for FaveQuilts.com

Combine two of your favorite types of quilts, rag quilts and t-shirt quilt patterns, into one awesome quilt project. These Ragged T-shirt Quilt Instructions will show you how to make a rag quilt with your old t-shirts that are too sentimental to get rid of. This t-shirt quilt pattern method is great because it makes it easier to sew with knit fabrics and eliminates the need for interfacing. Just pick a favorite polar fleece pattern for the back of your quilt, and get quilting! Learning how to make a t-shirt quilt has never been easier.

Materials:

- 2-3 yards-t-shirts or t-shirt knit, cut into desired size blocks (12", 14", 16", etc.)
- 2-3 yards polar fleece for backing

Instructions:

1. Match knit blocks with polar fleece blocks, wrong sides together.

2. Pin block units together, polar fleece sides together (back sides together).

3. Sew block units together with 1" seam allowance (this 1" will be cut into fringe or "ragged" edges) to create length desired.

1. Match seams of sewn block strips; sew together with back sides facing using a 1" seam allowance to create width desired.

2. Trim corners at seam corners.

3. "Rag" quilt by clipping into seam allowance every ½".
